# Cap'n Andy

[Printable Version](#)

All our products have been extensively tested by some of the best fishermen and Charter Captains along the coast. We thank them for their assistance and for their suggestions, many of which have been incorporated in the lures. Without their help, Cap'n Andy Lures would not have reached the popularity its products enjoy today.

If you have any suggestions for improving our lures, or would like to see new types, models, or colors added to the line, please [let us know!](#) Also, if you are having problems getting our lures to produce for you, please [contact us](#) and we'll try to help you get more fish with Cap'n Andy Lures!

We are fishermen who truly enjoy working with fishermen!

## Poppa

The Cap'n Andy **POPPA** is one of the finest wooden popping plugs on the market today! It works well for many of the world's great game fish!

There are several ways to attract fish with a POPPA:  
Cast it out, then let it set for a bit. Jerk your rod tip to pop it up, and let it set again, then pop again.  
Cast it and retrieve it slowly, giving it a pop every few feet.

Cast it out and retrieve it rapidly, jerking the rod tip during the retrieve.

Experiment to find out how it works best for you each time you go fishing!

POPPA is manufactured in many sizes and colors. If one is not working, keep switching until you find the size and color of the day!

**Colors:** White, Yellow, Blue, [Flourescent Orange](#)

**Sizes:** 1 1/4 oz, 2 oz, 2 3/4oz

## Li'l Momma

The Cap'n Andy **Momma** is one of the finest wooden swimming plugs on the market today! it is available in two sizes in both surface and diver models.

There are several ways to attract fish with a Momma:

### TROLLING

Place the Momma in the water beside the boat, then adjust speed to obtain the best action. Occasionally pulse your rod tip to give her erratic action.

### CASTING

Vary the speed of your retrieve and periodically pulse the rod to make the Momma dart and wriggle. Occasionally stop and let her rise to the surface before retrieving again. Quite often this will bring an immediate strike.

Momma comes in many fish-catching colors. If one isn't working for you, keep switching 'til you find the "color of the day"!

**Colors:** White, Blue, Yellow, Brown Eel, Black, Rainbow, Flourescent Green, Red Head

**Sizes:** 6" long, 2 oz.

## Big Momma

Savvy saltwater anglers understand the value of wooden plugs. To give these anglers a high-quality lure, McKala Fishing manufactures the Big Momma.

This lure features thru-wire construction, a bluefish tooth-resistance acrylic finish, and an eel-skin ridge. Big Mommas are available in surface and diving models. Colors include blue back/white belly; white, black, natural eel and rainbow.

**Colors:** White, Blue, Yellow, [Brown Eel](#), [Black](#), Rainbow, Flourescent Green, Red Head

**Sizes:** 8" long, 3 oz.

## Killa Gorilla

### Killa Gorilla™ Multi-lure Rigs

This special umbrella rig combines the fish catching abilities of a standard umbrella rig and the appeal of trolling tubes and snakes. The 32-inch wide Killa-Gorilla umbrella rig has eight teasers tubes and four stinger tubes. In the water, the entire rig looks like a sandeel school.

Many saltwater sharpies add a 24" Snake (not included) to the center hub. This combination causes the Killa-Gorilla umbrella rig to run deeper than any other umbrella rig. It is available with red, white or black stinger tubes and teasers.

**Colors:** Red, White, Black

## The Snake

Charter boat captains throughout the Northeast know how effective a trolling snake can be when seeking striped bass and bluefish. The McKala Fishing "Snake" is one of the toughest snake lures on the market.

Each Snake is made from tooth-resistant rubber tubing with a beefy thru-wire skeleton. Unlike most other trolling snakes, McKala Fishing's prize has two hooks, one in the head for aggressive striped bass and one in the tail for the lazy fish. The Snakes are available in 24", 30" and 36". Colors are red, black and natural eel.

**Colors:** Red, Black, Natural Eel
